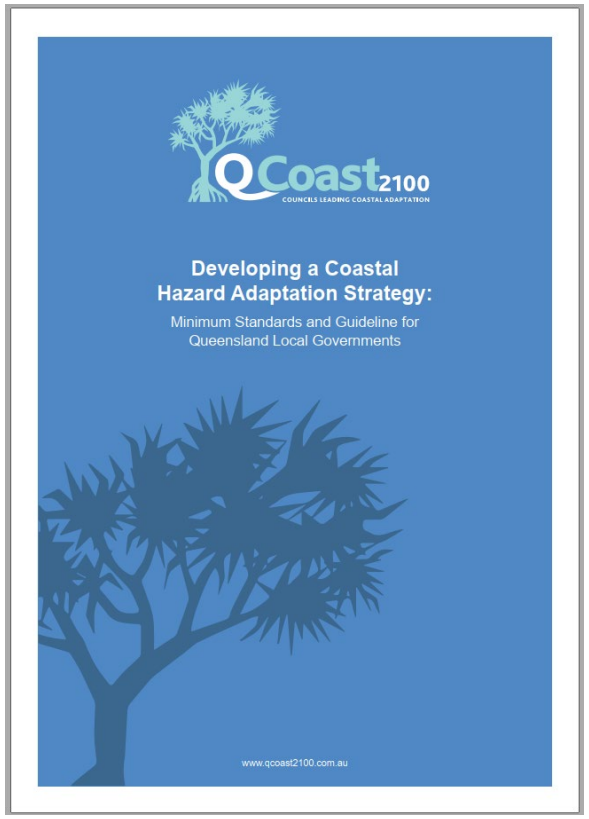
The Guidelines



- Phase 1 -7
- Minimum requirements & Leading practices

Figure 1. Project phases

alluvium consulting

Your turn

Reflect on your own experience implementing your CHAS…

- What **actions** have you commenced or completed?

  E.g. used to inform SEMP processes, obtain grant funding???

- What **outcomes** have you achieved?

  E.g. updated planning scheme, improved council staff appreciation of coastal hazards and risks???

Think about these individually (~5 mins).

Your turn

Reflect on your own experience implementing your CHAS…

- What do you wish you had considered or done differently during its development to make implementation easier or more effective?

Think about these individually (~5 mins) before sharing them at your table.
