

QCoast₂₁₀₀ 2.0 Funding Program 4 Implementation of a CHAS

QCoast₂₁₀₀ 2.0: Implementation

- Competitive grant program
- Support implementation actions recommended in a CHAS
- Designed to optimise the benefits to councils

QCoast₂₁₀₀ 2.0: Program objective

Demonstrate

innovative and cost-effective solutions

Emphasise

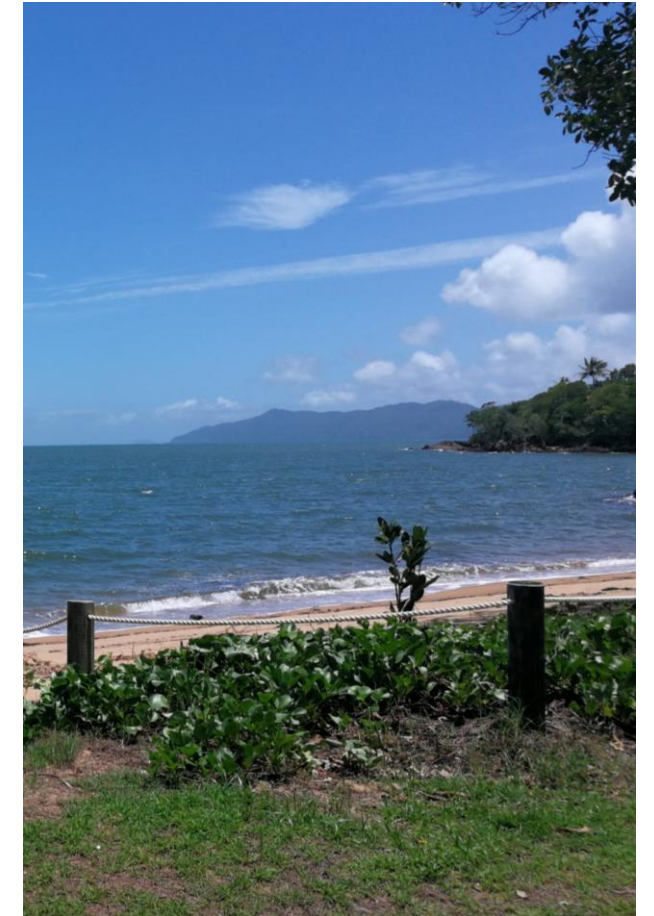

nature-based solutions that preserve the natural character of the coast

Benefit

other councils across the State through joint projects, shared learnings or provide leading practice examples

Provide

leverage for QCoast₂₁₀₀ funding through partnerships, joint projects, and high co-contributions

QCoast₂₁₀₀ 2.0: Eligibility (Council)

Councils must:

- have developed a CHAS through the QCoast₂₁₀₀ program
 - endorsed or adopted by the council; and
- provide a funding co-contribution

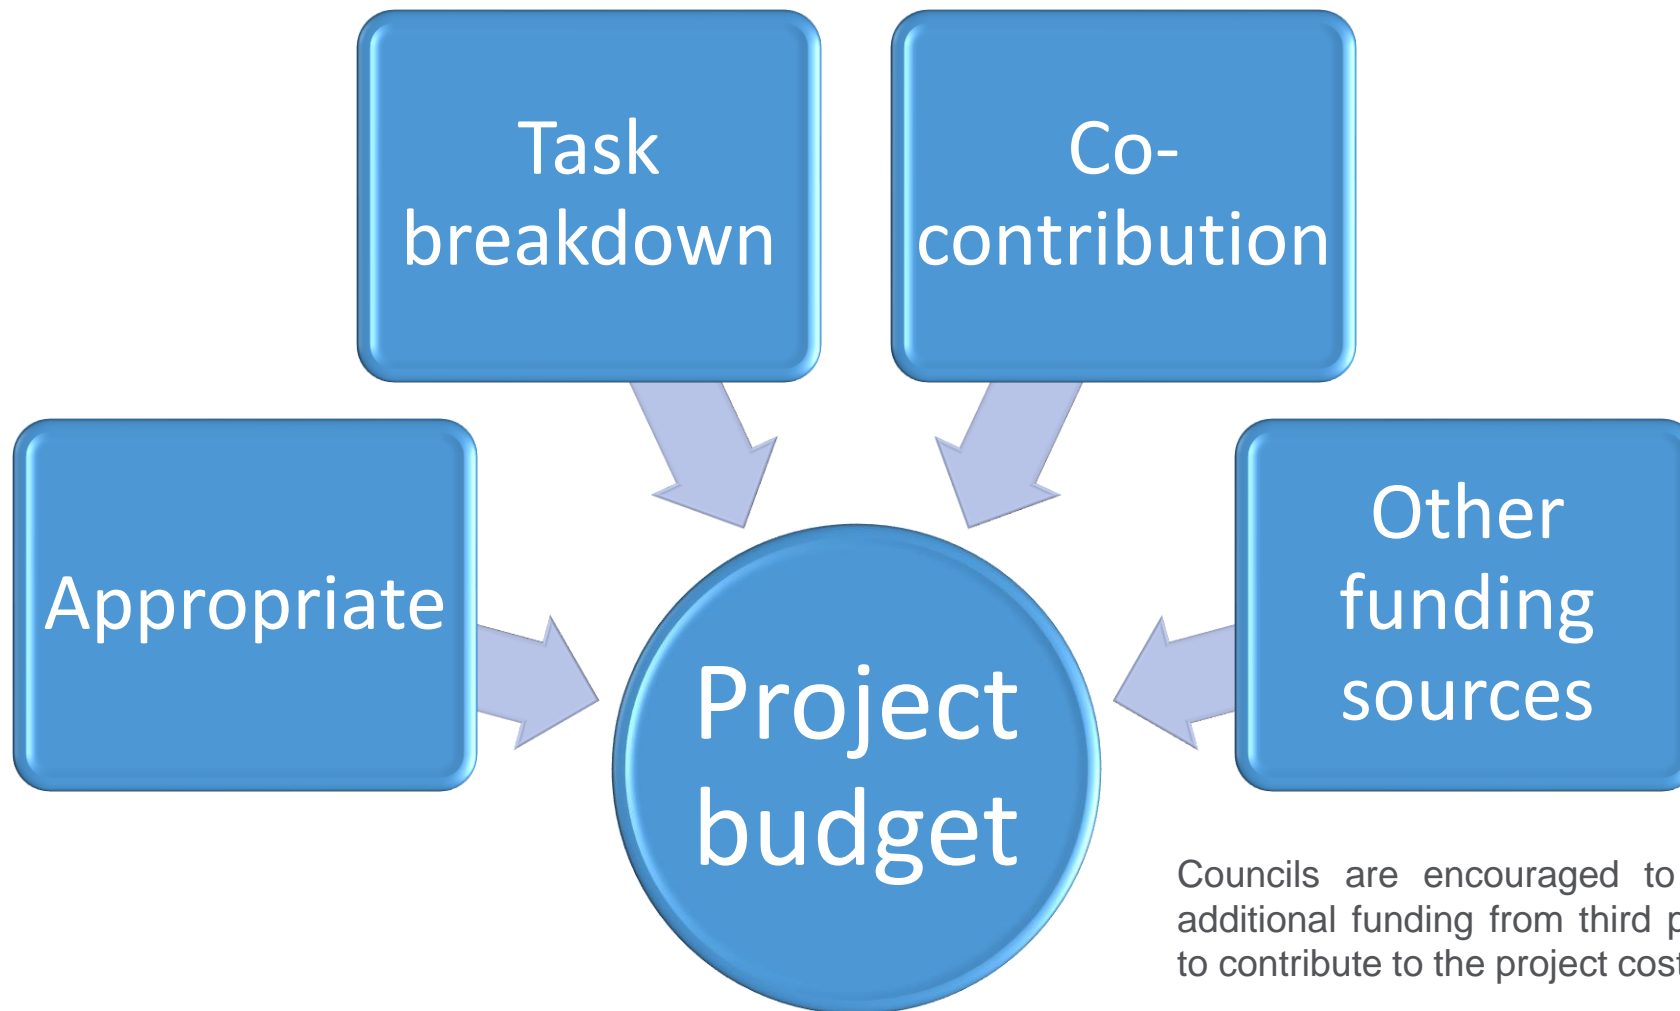

QCoast₂₁₀₀ 2.0: Funding

- Approx. \$2 million available to fund eligible implementation projects
- Individual project budgets based on specific project requirements
- Up to \$200,000 per council
- Co-contribution requirements determined using LGAQ Membership Subscription formula (2021/2022)

QCoast₂₁₀₀ 2.0: Funding

Councils are encouraged to seek additional funding from third parties to contribute to the project cost.

Projects must be:

related to the actions or recommendations in a CHAS or in the Implementation Plan forming part of a CHAS

expected to be able gain development approval requirement under relevant legislation (if required)

identified in a CHAS under development, where a critical need is identified for immediate implementation

Projects may include:

works or planning for defence of assets and the community from coastal hazards

nature based solutions to address emerging coastal hazards or improve resilience
e.g. beach nourishment, mangrove restoration, wave, and current attenuation

evaluation of new approaches and designs to inform future works

community engagement work to refine CHAS actions especially where communities are facing short term hazard threats and solution development is complex or contentious

tenure transition and the asset relocation plans or actions

monitoring or data collection programs which support trigger-based CHAS actions

QCoast₂₁₀₀ 2.0: Assessment criteria

- ☐ Progresses actions in a CHAS 'Recommendation' or 'Implementation Plan'
- ☐ Provides a benefit of asset protection and community safety
- ☐ Demonstrates innovative designs or new concepts in adaptation
- ☐ Demonstrates efficiency in the application of QCoast₂₁₀₀ grant funding
 - ☐ high co-funding contribution
 - ☐ increased funding contribution through partnerships
 - ☐ demonstrates that early adoption will lead to future cost savings

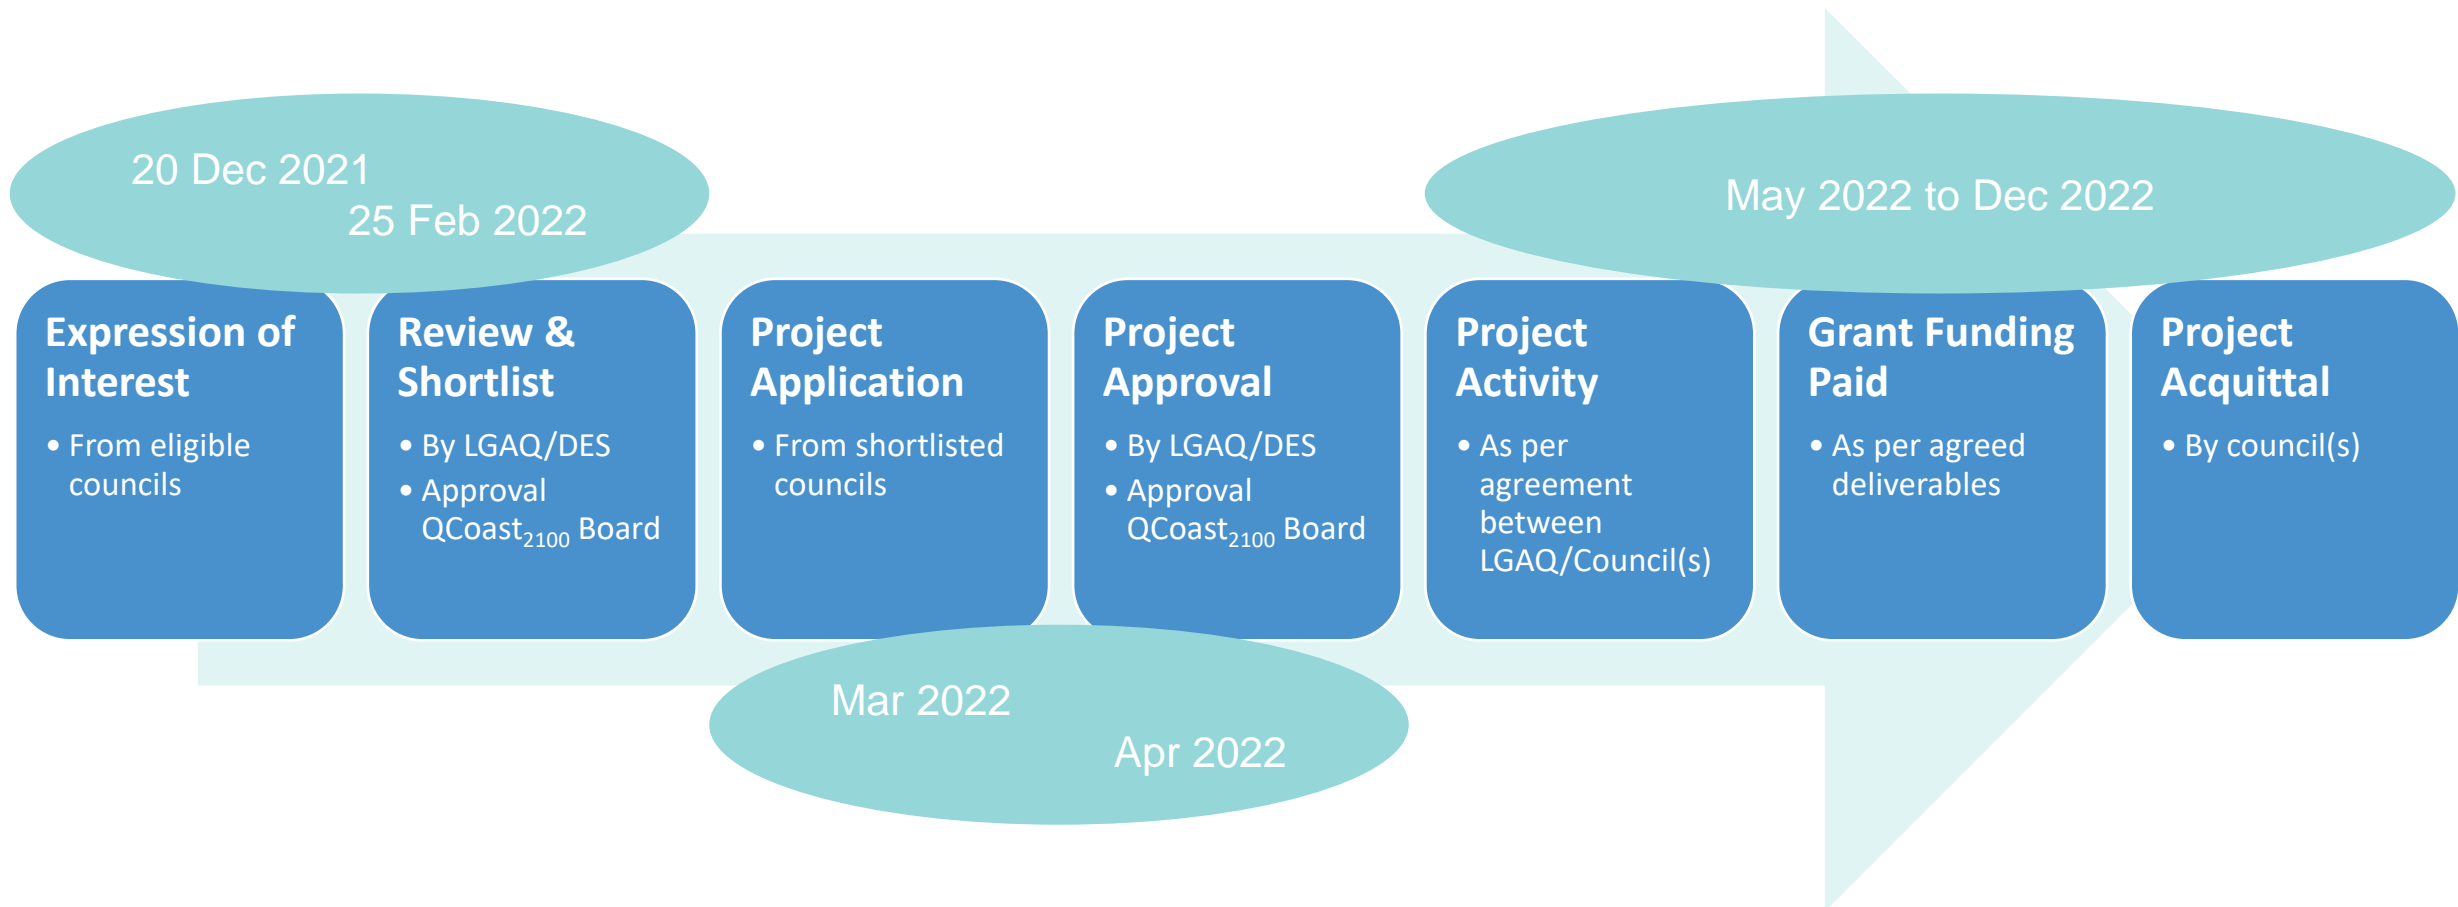

QCoast₂₁₀₀ 2.0: Assessment criteria

- ☐ Adopts 'nature based' solutions that maintain the natural character and processes of the coast
- ☐ Supports the community to progress solutions including through bespoke engagement and planning for communities at near term risk
- ☐ Commences a pathway for other sequential adaptation projects
- ☐ Provides a benefit to other councils in term of shared learnings, demonstration of new or novel approaches and transferrable solutions

Meeting multiple criteria will be of benefit in project assessment

QCoast₂₁₀₀ 2.0: Application process

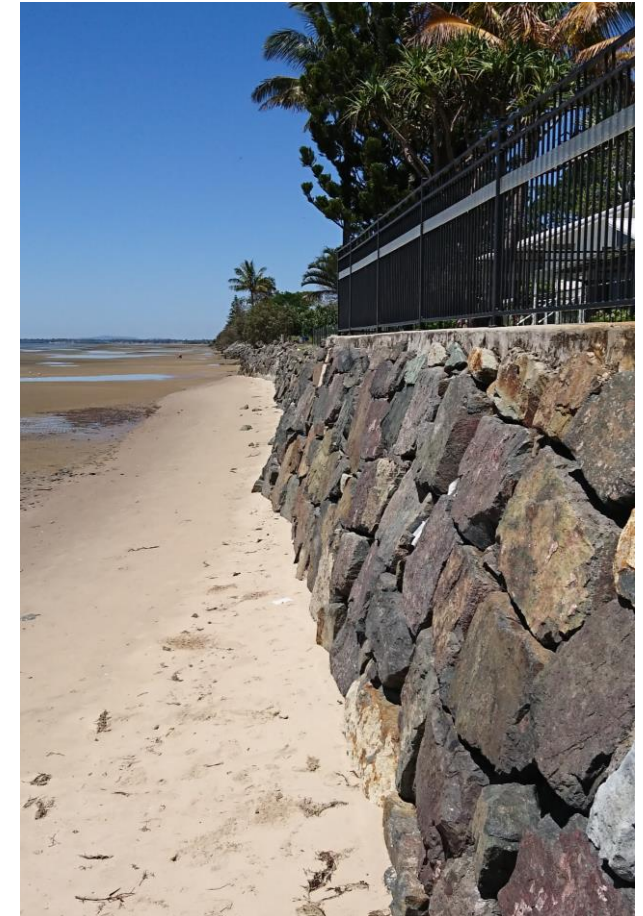

QCoast₂₁₀₀ 2.0: Expression of Interest

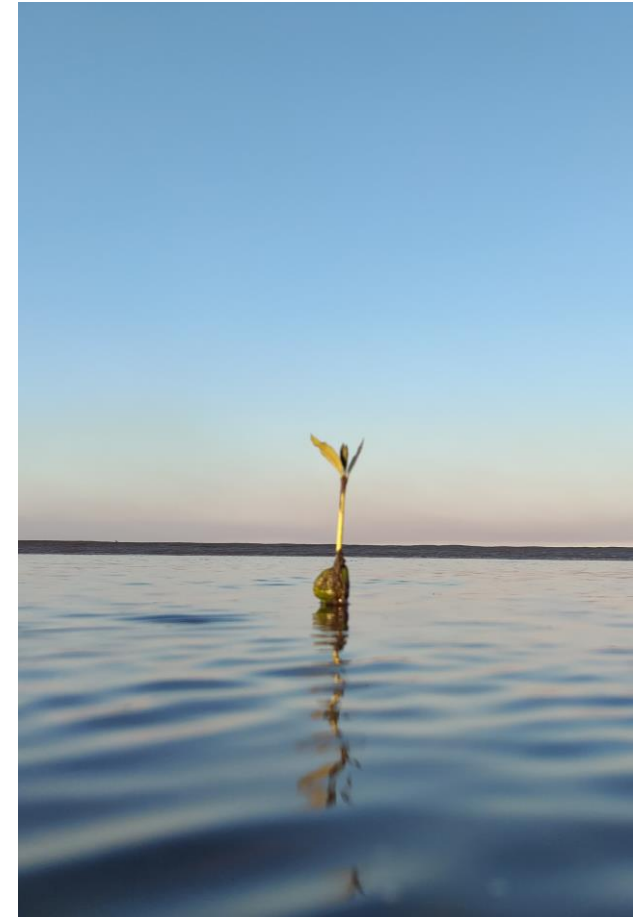

1. Project Summary

- a) Description of the project including intended outcomes
- b) New or innovative
- c) Natural character of the coastal environment
- d) Location

QCoast₂₁₀₀ 2.0: Expression of Interest

2. What specific recommendations or actions identified in a CHAS are intended to be addressed by this project?
3. Why are these works needed now?
 - a) Immediate and future benefits of the works
 - b) Critical need for or benefits of immediate implementation
 - c) Identifiable cost savings for early implementation

QCoast₂₁₀₀ 2.0: Expression of Interest

4. How does this project meet with some, or all, of the project assessment criteria?
5. Project Milestones and Timeline
6. Budget
 - a) Indicative project costs, council co-contribution, other funding sources
 - b) Other grant program or collaborative arrangement
 - c) Collaboration and cost sharing is supported.

QCoast₂₁₀₀ 2.0: Expression of Interest

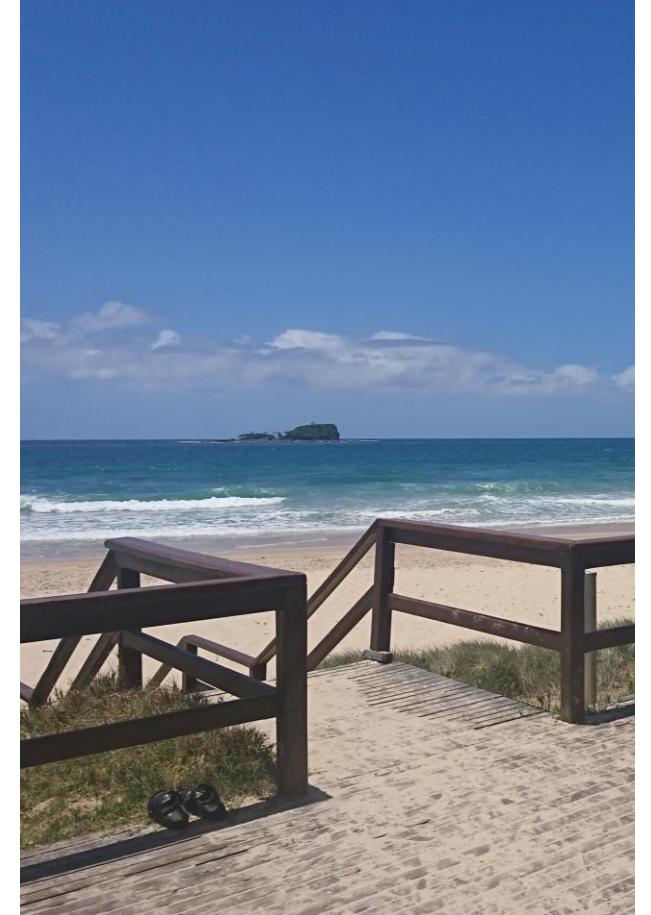

7. Project status

- a) list any approval(s) required or obtained including indicative timelines

8. Other information

- a) benefit other local governments (demonstrating innovative techniques or approaches)
- b) foundational project for other CHAS actions

QCoast₂₁₀₀ 2.0: Key Dates & Further Info

Key Dates

25 February 2022

- EOI submission closing date

31 December 2022

- Program completion date
